Notes for the Guidance of Authors

The journal publishes both invited and contributed articles. Authors wishing to contribute articles to the journal should send their manuscripts to the Editor or by E-mail to PRKM@scilet.com or articles may be uploaded to www.scilet.com/upload using the password kinetics. Complete manuscripts will be considered for publication, but intending authors may also submit summaries of proposed articles. Papers submitted for editorial consideration and peer review should be typed double-spaced with ample margins and on one side of the paper only. Only papers written in English can be accepted for publication. The first page should include the authors' names, affiliations, details of the corresponding author including telephone, fax and E-mail numbers. A contents list containing all the heading and subheadings should be provided. A summary of up to 250 words is required and a list of up to 10 keywords provided. The context should be established in the introduction. If submitted by regular mail, two copies of the manuscript should be submitted. The author should retain a copy of the manuscript.

TABLES: Tables should be typed on separate sheets.

FIGURES AND ILLUSTRATIONS: Diagrams, graphs and photographs should be designated as Figures and numbered sequentially throughout the text. Each illustration should be on a separate sheet without captions and have written on the back the title of the article, the author's name and the figure number. The figure captions should be collected together on one sheet of the manuscript. Where it is necessary to use an illustration that has been published elsewhere, the author must supply a copy of the illustration and obtain permission to republish it from the holder of the copyright. The permission should be forwarded with the manuscript.

REFERENCES: The reference list should not exceed 150 reviews and original papers. References should be cited in the text by the use of a number in square brackets attached to the relevant statement. References should be numbered consecutively throughout the paper with a single number for each unique reference work. In the reference list, the details should comprise all surnames and initials, the full title of the article or chapter, the book or journal title (abbreviated according to the World List), date, volume number and page range, and in the case of a book, the publisher and place of publication.

EXAMPLES:

- [1] Brown, A. and White, K. (1995) Lasers – a review. *Prog. Sci. Today*, **85**, 61–63.
- [2] Dixon, K. (2006) Photodegradation matters. In: Ostler R. (ed.), *Powers Unknown*, Vol. 1, Chap. 2, pp. 30–45. Science Books, Northwood.

ACCEPTANCE: The Editors are free to reject manuscripts (commissioned or otherwise) submitted to them, to suggest amendments and to make minor corrections. All possible care will be taken of manuscripts, but neither the Editors nor publishers shall incur liability in the event of accidental loss or damage.

Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This journal and the individual contributions contained in it will be protected by the copyright of Science and Technology Letters, and the following terms and conditions apply to their use:

PROOFS AND REPRINTS: Proofs will be sent to authors for the correction of typesetting errors only. Other alterations will be charged to the author. Offprints may be ordered when the corrected proofs are returned.

PHOTOCOPYING: Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the publisher and payment of a fee is required for all other photocopying. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

ELECTRONIC STORAGE: Permission of the publisher is required to store electronically any material contained in this journal, including any article or part of an article.

Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the publisher.

DISCLAIMER: No responsibility is assumed by the Publisher for any damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.
